TRAIN-CAR SMASH KILLS ALVARADAN

Two farm workers were injured, one of them fatally in a train-auto collision early Monday between Alvarado and Newark.

Dead is David Yanez, 25, of Alvarado, who died at Fairmont Hospital in Oakland. Also taken to the hospital with severe cuts of the face and body was Jose Jesus Chavez, 23, of Alvarado.

Their light sedan was struck squarely at 8:17 a.m. on the Ardenwood crossing, on Marsh Road, by a San Jose-bound passenger connection of the Southern Pacific Daylight.

Engineer R. R. Lee of Oakland said he neither saw nor heard Chavez' car until the impact. The car was hurled clear by the smash.

Newark Revamps Its Zoning, Turns Cold Shoulder to Shopping Center

Newark adopted a revised edition of its present zoning Tuesday night, but refused to include a \$3,000,000 shopping center sought by a San Leandro promoter.

Tonight the revamped zoning map goes before Alameda County's planning commission for initial hearing.

It carries (1) a request to extend the business district southward to Baine Avenue, (2) removal of industrial zoning along Central Avenue from Cherry to the Free-way, (3) substitution of another industrial zone along Cedar Avenue from Baine to the American Forest Products mill, and (4) extension of industry to the Rheem parking lot and the block containing St. Edward's Catholic Church.

But the chamber pointedly failed to bless commercial rezoning for a 25-acre parcel on Thornton at Birch. Promoter Arthur Beal has optioned it, and wants to erect the shopping center there.

Gordon Cotton, chairman of the zoning committee, told the chamber that his 11-man group "was unanimous" in its recommendations, but that "we didn't have enough information to recommend one way or the other on Mr. Beal's center."

Beal appeared unruffled by the slight, even after a half-hour plea on the subject yielded him only skeptical queries. He said the chamber endorsement "doesn't cut all the ice," and that he is going ahead with (1) a public meeting two weeks hence in Newark Pavilion "to acquaint the whole town with my plans," and (2) his request to the Planning Commission to rezone the land from residential to commercial.

Joe Nuland played chief matador to Beal's bull. First Nuland tossed this barb:

"Are you able to finance the project if it's rezoned?"

"I'm glad you asked that," replied Beal, with the air of one who could conceal his delight without difficulty. Then he launched obliquely into a discussion of San Leandro's parking woes. Nuland kept prodding, and Beal complained about him "interrupting my train of thought." He said he hadn't had an opportunity "to explain fully." Attorney LeRoy Broun interposed: "You had one whole night last month." (Before the chamber.)

"If this community needs the stores, I can get all the 3-percent insurance money in the world to finance them," Beal finally retorted. "Anyway, why do I have to tell you all my business?"

"If you're selling stock, I'm not interested," snapped Nuland.

At last, on motion of Buford Barks, the issue was tabled, and the map proposing homes for the 25 acres went unchanged. Beal walked out.

As a side-light, Cotton's committee did recommend a 5-acre shopping center at Dairy and Mayhew Landing Road, as requested by the Smith-Peters Company.

NILES FILM FETE MAY BE JUNE 7

Tentative date for the Chamber of Commerce's "Essanay Day" in Niles has been set for June 7.

This was announced Tuesday at a chamber luncheon by Stuart Nixon, member of the Niles Merchants' Association committee to promote the fete commemorating the historic film studio here.

Lester Whitaker Jr. is contacting sign companies to get bids on a huge billboard to attract motorists to town. It probably will have an Essanay theme.

Nixon reported that J. B. Blackwell, new lessee of the Mohawk service station at First and G Streets, site of the old studio, has oked erection of a marker there. He added Blackwell also will distribute free folders describing the studios, which closed in 1916 after housing such movie "greats" as Charlie Chaplin and Ben Turpin.

GI, 21, DROWNS IN NILES GRAVEL PIT

While his swimming companion grasped for him in vain, a 21-year-old soldier on furlough drowned Saturday afternoon in a Niles gravel pit.

The victim was Pvt. Daniel P. Ramos, 21, of Camp Roberts, who had been visiting his grandparents, Mr. and Mrs. Vincente Duarte of 421 Fourth Street, Decoto.

Pvt. Ramos was swimming in the pit at the end of School Street with three Decoto boys—Joseph and Robert Contreras and Romero Chavez—when he was apparently seized with a cramp.

Chavez—who is 15—said Ramos shouted for help. Chavez told deputy sheriffs he dived and grasped Ramos' fingers, but that Ramos struggled away and sank. Deputies Everett King, Beverly Bunting and Ted Logan recovered his body from the 60-foot-deep pit three hours later. Ramos leaves his widow, Marcela, and two small children in Escondido.

NEWARK VOTES SHARE

Newark's Chamber of Commerce Tuesday voted its \$50 share of the Coro incorporation survey

On motion of Gordon Cotton of Newark, Decoto's chamber was asked to drop its decision to secede, made three weeks ago after angry charges that Decoto wasn't getting its share of attention from the Township Chamber.

Township Chamber President Maurice B. Marks said he will

attend the Decoto Chamber meeting and present the appeal in person.

Marks commented Decoto's withdrawal "would be a loss not only to the Township but to Decoto."

On hand were Manuel Hidalgo, Frank Borghi Jr. and Kenneth Garcia, who took part in Decoto's original action.

Garcia attempted to speak, but got only as far as: "Our big beef is . . ." when Hidalgo hushed him on the grounds he was an

CENTERVILLE ZONE, 'HOME RULE' WILL HEADLINE CONFABS

Date will be set this week for public hearing on protective zoning in Centerville.

This was decided Monday at a session of the Centerville Chamber of Commerce.

Lee S. Williams, chairman of the chamber's planning-and-zoning committee, called a committee meeting for tonight to set the date and place of the public confab.

Louis Cardoza, committee member, stressed "many people think the Chamber of Commerce is zoning the town, and this isn't so. It will be decided by the property owners as a whole." Cardoza urged residents to view the proposed zoning map on display now in the Bank of America, and to follow with suggestions to his group.

Secretary LeRoy Broun also reported a special meeting of the Washington Township Chamber of Commerce will be called before results of the recent Coro Foundation incorporation survey are released.

He explained he fears the survey "may prove confusing" unless properly interpreted when publicly shown. Two hundred fifty copies of the survey are being printed this week.

Broun reported Joe Adams, W. R. Goodwin and Eugene Manning as additional contributors to the printing fund.

He also warned the so-called "anti-free-rider" bill, making it possible for counties to charge unincorporated areas more for services, passed the Assembly on April 15. Under the compromise measure, Broun reported, supervisors will be able to decide what areas they will force to form districts to pay direct taxes for the services.

On motion of Al Martin, the secretary was directed to write the State Division of Highways asking that Main Street be returned to two lanes, like the highway north and south of Centerville.

Members said vehicles speeded up in town and make the street "a racetrack" in their efforts to pass slower cars.

Irvington Warned

Proper community planning will insure Irvington its share of coming industrial and home developments, Don Daggett, Southern Pacific industrial agent, told the local chamber of commerce Tuesday.

"No large industry will consider buying land until it is assured of protection by zoning," Daggett declared. "You have all the facilities here. Don't let growth pass you by for lack of good planning."

Niles Mail Job

Donald W. Anderson, RFD Box 78, Niles, has been appointed rural carrier at the Niles post office.

Married, with two children, he formerly worked for a Newark industrial firm. Anderson takes over May 4, according to Postmaster Edward E. Enos.

NO CANDIDATE

Failure of anyone to file for the expiring term of Alvino District School Trustee J. V. Orsetti insured a write-in ballot in the district in the May 15 election. In the event nobody's name is written in, the county superintendent of schools must appoint a trustee to fill Orsetti's post after July 1.

Township CC Head Seeks To Have Decoto Reconsider

An effort to have Decoto reconsider its recent move to withdraw from the Township Chamber of Commerce was made last week at a session of the Township-wide organization.

On motion of Gordon Cotton of Newark, Decoto's chamber was asked to drop its decision to secede, made three weeks ago after angry charges that Decoto wasn't getting its share of attention from the Township Chamber.

Township Chamber President Maurice B. Marks said he will

attend the Decoto Chamber meeting and present the appeal in person.

Marks commented Decoto's withdrawal "would be a loss not only to the Township but to Decoto."

On hand were Manuel Hidalgo, Frank Borghi Jr. and Kenneth Garcia, who took part in Decoto's original action.

FARM ZONING PASSES DESPITE BARTELL, DEBATE 'SNAFU'

A new classification—agriculture—was added Thursday to Alameda County's Zoning ordinance.

The classification was voted by the Board of Supervisors and was announced here at a luncheon of the Niles Rotary Club a few hours later by Chester E. Stanley, chairman of the board.

TOO EARLY RETURN TRAPS INTRUDERS

Detective stories say the criminal always returns to the scene, and Deputy Sheriff Bud Fall finds it's not hard to believe.

Tuesday night, burglars broke into Scott's Shoe Store in Niles by removing a rooftop trapdoor, stole \$100 worth of shoes and clothing.

Wednesday, Fall was in the store questioning Proprietor H. L. Scott. Three youngsters entered, dressed in brand new blue-jeans, asking to have their shoes repaired. Fall recalled that jeans were part of the loot.

He followed the trio home, quizzed the boys. Fall said they confessed the burglary, and implicated two other lads. All are in Juvenile Hall, and officers said most of the stolen articles have been recovered.

386 NEW HOMES WIN PLANNER OK

Three good-sized local subdivisions received sanction from the Alameda County Planning Commission last week, and several more are seeking to bring new homes to Washington Township.

Approved were:

1. The 200-home tract east of Ellsworth Orchard planned by Claude T. Lindsay Co. of Decoto. Work will start on this development, named "Canyon Heights," within two weeks.

2. A 109-home subdivision on Olive Road, east of Irvington, slated by Jack Protty of Niles.

3. A 77-home addition to Glenmoor Gardens, near Centerville, making a total of 278 in the tract, which Developer James R. Meyer now plans for 1100 higher-priced houses.

A Lindsay spokesman said the 200 homes near Niles will be of conventional-roof type, will be both GI and FHA financed, and will sell for about \$10,000.

Entrance will be from Canyon Heights Drive, with an emergency exit only on Orchard, under the Western Pacific tracks. The land, 45 acres, recently was purchased from Protty.

Protty, meantime, won approval of his 109 homes near Irvington with the proviso that he build a fenced reservoir in a neighboring gully to hold flash floodwaters. The tract, comprising some 23 acres, will drain down the gully and through Irvington, and brought the comment from Commission Secretary John Jay Thomas that it may be the last one allowed in the area until some flood district is formed. Protty's homes will also be in the \$10,000 class.

Meantime the commission this week received applications from (Continued on Page 8)

Board Seeks Funds For New Building

A \$150,000 bond issue and a request to the State for another \$610,000 to help build a second grammar school in Niles will be the subjects of an election June 16.

This was decided Monday night at a special session of the Niles School trustees.

District Supt. E. Dixon Bristow said crowded conditions at the present school make a new one imperative. More than 700 students are jammed into the single school, double sessions prevail through the third grade, and there are two classes in each of the other grades.

The school was designed to hold about 400 children.

Bristow said a new 17-room school will be started just east of Ellsworth Orchard as soon as (1) the bonds are voted, and (2) the State gives its oke to the application for aid.

He stressed:

1. Only \$69,000 of the bonds need be sold at once to qualify the district for State assistance.

2. State school officials have assured him Niles' priority for State funds is high.

The superintendent also disclosed the Oakland architectural firm of Anderson & Simonds has estimated cost of the Ellsworth Orchard School at \$406,906. It will include 13 classrooms, a multi-purpose room, administration room, nurses' quarters, and teachers' room.

It will be located in the center of a new 239-home tract which was approved last week by the County Planning Commission.

Trustees George Burr, John Cataneo and John Kelly agreed on the June 16 ballot date, then named the following election officials: Mrs. Mary Solon, Mary Regan and Mrs. Ida L. Moise. Voting at the school will be from noon until 6 p.m.

Bristow reported:

1. The district's present bonded indebtedness is \$121,000, incurred when the school was built in 1939 and when a three-room addition went up in 1947.

2. Assessed valuation of the district is now \$3,812,660—giving another \$69,000 in bonding capacity.

3. The district attorney's office advises floating a \$150,000 bond issue because the money will be needed as the assessed value increases, and the additional bonds can then be sold.

BROKER ARRESTED

Clarence E. Pementel, 28, Mission Highway livestock broker, was jailed Tuesday on charges of indecent exposure involving an 11-year-old girl on Mowry Road. Pementel was arraigned before Judge E. A. Quaresma, pleaded innocent, and was released on \$250 bail to appear again April 28.

END TO A-LA CARTE
W.U.H.S. MENU SEEN

Washington Hi probably will drop the "a-la carte" type lunch next fall, Principal J. V. Gould said today after a special meeting of his trustees.

The trustees met last Wednesday with Mrs. Pearl Bowman, cafeteria supervisor, who advocated the "balanced menu," as opposed to the high school's present practice of allowing students to order what they please.

Last January, the student council voted for the "balanced menu," noting that most other schools now have it. Previously, said Gould, local pupils had opposed it.

Mrs. Bowman, who came here last fall from Arizona, also presented suggested changes on operation of the cafeteria. She had requested a direct hearing from the board. On motion of Judge E. A. Quaresma, seconded by Manuel Bernardo, she was directed to follow Gould's policies.

Trustees of the Centerville Elementary School, Judge Allen G. Norris, Mrs. Mary G. Rodriguez and Allan E. Walton, have adopted a school calendar for the 1953-54 school year which is similar to that for Washington Union High School.

The Board authorized Principal Tom Maloney to accept applications for an additional eighth grade teacher, an additional seventh grade teacher, openings made nec-

essary because of growth; and to accept applications for a kindergarten teacher to replace Mary D. Rodriguez who plans to retire after serving the district for 30 years.

The calendar shows school opening September 10, a three-day holiday from November 25 to 27, Christmas vacation starting December 21, Easter vacation from April 12 to 16, and summer vacation starting June 18.

TRACK PINS AND ROLLER RIMS ARE HI-ELECTRO "ARMORED"

ON "CATERPILLAR" TRACK-TYPE TRACTORS

To keep the wear-rate slow even under severe sand, grit or other abrasive conditions, "Caterpillar" gives track pins and roller rims and other parts the modern high induction "Hi-Electro" treatment.

Results: Both degree and depth of hardness are greatly increased while part interiors retain their normal shock-resistance. That means longer-lasting parts, less upkeep expense.

DISASTER AGENCY URGED ON CRUSADE

A recent tragic fire in Canyon Heights this week spurred United Crusade officials in Washington Township to suggest an emergency agency be formed to deal with such incidents.

The suggestion was disclosed by Peter D. Juhl, newly-elected chairman of the Crusade in the Township. He said it will be urged by him at tonight's meeting of the Community Chest budget committee.

Said Juhl: "Suggestions have been made that a new agency of the Crusade be formed from labor and management having as its prime purpose dealing with health and welfare emergencies.

"This will avoid duplication of effort and monies and result in a more prompt and efficient dispensing of services. It would also avoid unjust criticism and make this important work of our Township more effective."

TOO MANY DIE ON BASE, HUSKIES DROP TOUGHIE TO SANTA CLARA NINE, 6 TO 4

Washington's nine Huskies, unable to hit in the clutch, dropped their second straight SCVAL contest last Thursday, bowing to the Santa Clara Panther 6-4, on the Panther's diamond. The loss now gives the Huskies a 1-2 mark in league competition.

The Malemutes had runners on base in practically every inning. But it was their inability to hit when it counted that cost them the contest. They left a total of 11 men on the basepads, while the Panthers stranded only four.

The Orange and Black's only lead of the afternoon came after trailing by one run in the initial frame. After loading the bags with one out, Right Fielder Ed King popped up to Second Baseman Bill Fernandez.

Tony Nieves, Husky's first sacker, was on third, and thinking he might catch the second sacker off guard, broke for home. Fernandez saw what was coming and rifled the ball in to Catcher Al Saptola. Nieves saw he would be out by a mile, so instead of sliding, he jumped over the back of the kneeling Saptola, and was ruled safe. It was the type of play that you don't see every day.

The Panthers came back to tie it up in the second and then went out ahead in their big third inning. They tallied five runs on five hits as they batted starting Pitcher Bob Hird out of the box.

The locals picked up one in the fifth and two more in the sixth, but it wasn't quite enough to catch the hard-hitting Panthers.

BIG INNING RAPS MENLO NINE, 13-2

Exploding for 10 runs in the fifth frame, the Washington Huskies scored their eleventh victory of the season last Tuesday, outting the Menlo Bears 13-2, on the local diamond.

The Huskies garnered only two base hits in the big 10-run inning as two Menlo Park hurlers issued eight bases on balls.

Right-hander Ray Ruiz, making his first start of the season, pitched the first four frames and was given credit for the win. Bob Lunsford pitched the final three.

Frank Murakami paced the Malemutes at bat. He collected two hits in five trips.

With Mrs. Foster, he will occupy quarters in the same building. Formerly of Oakland, the Fosters for a time operated Joyland Park in Niles Canyon.

How to make
good telephone service
even better....

You'll spread the news faster if you call by number When you're making out-of-town calls you'll find that your calls go through faster—twice as fast—if you give the operator the telephone number you want rather than just the name and address. That way, you see, you won't have to wait while she calls "Information" to get the number you're calling. So why not keep a list of out-of-town numbers handy—it's surprising how much time you'll save.

now you can take calls
anywhere in the house

No more missing important calls, simply because you were in a distant part of the house and couldn't get to the phone in time. You can enjoy extension telephones now—for just a few pennies a day.

When we moved from New England we learned that
Gas and electricity are cheap in California

says Mrs. V. A. McGuire of Fresno, right, with her sister, Mrs. Edward Arvanigian

How P. G. and E.'s low rates save Mrs. McGuire money...

In their comfortable Fresno home, the McGuire's use these appliances to save work, make life more pleasant.

The McGuire's P.G. and E. bill last month... \$15.92

In her former Eastern home the same amount of gas and electricity would cost... \$37.30

Upon coming to California in 1949, Mr. and Mrs. McGuire found that gas and electricity cost less than half as much here as in their former home.

While most everything you buy has doubled in price since 1938, P.G. and E.'s combined rates are actually lower now than they were 15 years ago! Let bargain gas and electricity do more of your work, make your life more comfortable.

Signs of Spring in our Township include the tunnels of green in the orchards, where only last month were showers of blossoms. A forecast of a plentiful fruit harvest to come. Another of the beauties of Spring is the flower sprinkled green velvet hills along Highway Nine. Soon there will be nothing but brown hues where it is so colorful now.

Did you enjoy May first as May Basket Day when you were a youngster? I did, and used to look forward to the making and anonymous distributing of the wild-flower creations. It was so much fun, but my family regards it as "old fashioned" and won't attempt to start the delivering of the cute remembrances here in Orchard Park.

Remind your husband of this some morning when the coffee is bad, and the eggs over-done. He is not completely dressed for work until he has put on a smile. But don't blame me if he threatens to toss the sugar bowl at you, as mine did. He feels that cheerfulness is not necessary, until after the third cup of coffee, and he gets that at work!

"Roses are red, violets are blue, orchids cost too much, won't dandelions do?" Our Washington Hi senior says he is looking for a date who will answer yes to that query. But I expect if he does, he will end up buying roses, the power of women being what it is.

If you want to use up the leftover coffee, that cup that father had no time to drink, try using it instead of other liquid when making chocolate cake, or icing.

Reports that the family recently burned out of their house in Canyon Heights have received assistance from neighbors and friends is a good indication of the community solidarity that could exist everywhere in the area. It should not take a disaster to bring about joint action on any worthy project.

I think the editor of The Register is to be congratulated on his Essay Series. It has straightened out many facts for me, and was very interesting. However, Niles residents may want to argue with the statement that when Essanay went, the town died. Not really dead, Niles is reviving, and will eventually be the center of a more permanent prosperity.

Say! After taking a peek at the Mother's Day cards now being displayed, I have come to the conclusion that being a mother has its advantages. After receiving one or more of the attractive cards from my family, I will continue to darn socks, and bake extra cupcakes for another year.

So long . . .

MYSTERY MAN WAS 'MOPPED' INSTEAD

Did you guess last week's Mystery Man was Joe Costa, Irvington dairyman? See if you can guess this one without rummaging through the rest of the paper for the answer:

New Orleans was the city in which he first saw light, in 1924. His father was a lumberman, and he and his twin brother went to Louisiana schools.

In 1941 he joined the Marines. They took him to California and he never went home.

With the leathernecks, he stormed Bougainville, the Solomons, Guam. At Guam he collected a Silver Star and also a hunk of Japanese iron. The battle was over, but one enemy soldier didn't get the word, and he tossed a grenade onto our Mystery Man while he—a lieutenant by battlefield promotion—was showing his platoon how to mop up.

"He mopped me," says our subject ruefully.

Back in the States, there was hospital, then college at Berkeley. There was also a pretty co-ed, and wedding chimes. Our man liked teaching, so he took courses in that at UC and San Jose State. Then he came to Decoto to put his theories into practice.

Two years of teaching left a lot of bills unpaid, so he switched to a better-salaried job in the Pacific States Steel mill. A student got it for him through his father, who worked there. Now our Mystery Man is in sales work for a laboratory-instrument firm. The twin, incidentally, is a television engineer in Detroit.

Our man says his hobby is politics, and indeed he has come to the fore fast in this field. He contends "there are things to be done and too few are interested in doing them."

His wife, granddaughter of President Benjamin Harrison, takes her husband's words to heart, and she is running for office.

In rapid succession, her spouse has been named head of his local political organization, his county group, and finally a director of his state organization. Now he is a candidate for the Assembly. Guess Who!

NEWARK REVAMPS ITS AREA ZONING

(Continued from Page 1)

mittee's map came when Donald Graham, of Rheem, requested the parking lot and adjoining church block be zoned industrial. He said the company plans to expand, and this is the only direction in which it can go.

Nuland and Barks questioned whether the church would object. Graham assured them it eventually will sell and move to a new location on Thornton. On Ray Truscott's motion, the amendment was oked.

As adopted, the plan shows Newark zoned approximately 55 percent industrial, 40 percent residential, and 5 percent for business.

The chamber plan differs from one suggested by the Planning Commission staff chiefly in that it retains business on both sides of Thornton, puts "park" land to the northwest into what Cotton called "a residential reservoir for future use," and proposed industry along Cedar—the future Freeway site.

Both plans agree to extend industry 200 feet northeast to Cherry, as asked by the Southern Pacific.

A valedictory was provided by SP Industrial Agent Robert Rodenberg, who commented: "Newark is the best-located town in the San Francisco Bay area for industrial development—if you plan it wisely."

New Homes Oked

(Continued from Page 1)

(1) the Rainier Construction Co. of Hayward, to put 158 homes west of Thornton Avenue-Freeway intersection, (2) the Laffer Day Saints Church to build a church and adjacent small tract on Fremont Avenue, east of Shinn Street, and (3) Dan Bodily to add 18 homes to his Niles Manor tract.

Commissioners turned down a second appeal from W. E. McElvain to establish a quarry in the hills north of Mission San Jose.
